Travel	Domestic travel will be required within the UK

Tomorrow runs on renewables - We are renewable energy developers: working hand-in-hand with landowners and local communities to increase the amount of clean energy generated in the UK.

Enso Energy has a significant development pipeline of renewable energy projects, and an impressive track record of delivering projects. Enso Energy is seeking a Grid Project Manager, an approachable individual that can communicate effectively and build trusted relationships at all levels as there will be a significant amount of cross departmental communication. Someone who has a personal interest and understanding of renewables and climate change and an enthusiasm and passion for working together to make a difference.

Purpose Of Role
<ul style="list-style-type: none"> This is an exciting opportunity to join one of the leading developers of renewables in the UK with a large portfolio of connections in BESS, Solar and Wind. The current portfolio of connections has a steeply rising workload profile in the coming years as each project approaches its connections dates. The Connections process reforms recently introduced by Ofgem place increasing emphasis on effective management of the development stage of projects. The Enso Energy Grid Team is expanding and restructuring to manage this workload to ensure they are effectively managing and delivering to the milestones.

Responsibilities
<ul style="list-style-type: none"> Overall accountability for the development and delivery of allocated Grid Connection projects from inception through to cancellation, sale or commissioning. Responsible for taking forward allocated lead areas to improve the grid connections processes, efficiencies or resolve common project blocking issues e.g. third party works. Full ownership of Grid Works design development for allocated projects Strong project management discipline and best practice - maintain project governance, programme and risk logs.

- Project planning and delivery to key milestones, with ownership of risk mitigating actions where necessary
- Carry out site optioneering in conjunction with National Grid connections engineers and or Distributed Network Operators DNO's.
- Carry out optioneering with Land Development and Planning teams to ensure the land options and cable routes are feasible and meet the needs of the connection.
- Cost estimation and high-level cost control for allocated grid connections
- Report in a timely manner on design and risk issues impacting Appendix J and Queue Management milestones and project delivery programme.

Capabilities

- Project Management experience in delivering complex infrastructure projects.
- Experienced in Electricity Transmission/Distribution/Solar/BESS technology
- Understanding and or experience of National Grid / Distribution connections process
- Experience of managing environmental and safety factors associated with project delivery.
- Experience of CDM Regs 2015
- Effective stakeholder management skills
- Excellent communication skills both written and verbal.

Behaviours

- Collaborative
- Adaptable
- Motivated
- Decisive
- Analytical
- Personable

Qualifications

- Minimum of 5 years of relevant experience (although not essential)
- Educated/qualified to degree equivalent level.
- Relevant PM qualifications (eg PMQ, Prince2) would be advantageous but is not essential.
- Full Driver's License

Continuous Career Development (CPD)

- Enso are committed to their staff and will provide a framework for training and development.
- The successful candidate will be expected to complete a relevant Project Management qualification such as the Association for Project Management (APM)
- Professional membership fees i.e RTPI, RICS and APM.

Benefits

- Cycle-to-work scheme
- Annual leave – 25 days, plus your birthday, plus bank holidays. After 2 years' service, additional 1 days leave on each completed year up to a maximum of 31 days.
- Flexible working
- Private healthcare – Including family
- Pension scheme – we offer a salary sacrifice scheme where you can choose how much you want to contribute with the company matching contributions up to 5%.
- EV Company car
- Company Bonus Scheme of up to 20% of salary.
- Contribution to Gym membership
- Enhanced maternity and paternity leave.
