

JOB DESCRIPTION – Project Manager

Job Title	Project Manager
Reporting To	Head of Project Delivery
Version Number	1.1
Direct Reports	
Salary	TBC + up to 20% Performance related Bonus
Travel	Domestic travel will be required within the UK

Tomorrow runs on renewables - We are renewable energy developers: working hand-in-hand with landowners and local communities to increase the amount of clean energy generated in the UK.

Enso Energy has a significant development pipeline of renewable energy projects, and an impressive track record of delivering projects. To support our growth plans, Enso Energy is seeking a Project Manager to join our Project Management Team and support the development and enable the construction of renewable energy projects, including ground mounted Solar, Battery Energy Storage Systems (BESS) and Wind Energy.

Enso Energy is seeking a self-motivated and proactive Project Manager that can communicate effectively and build trusted relationships at all levels. The ideal candidate will have a keen interest and understanding of renewables, an enthusiasm and passion for working as part of a team to lead and deliver projects with the Land Managers.

Purpose Of Job

The Project Manager will play a pivotal role in the delivery of a complex, exciting and varied Portfolio. Working closely with Land Mangers, Grid Connection Managers, and the Planning Manager you will track, update and work with all functions of the business to orchestrate projects being delivered to the project programme.

Main Tasks of the job

- Project Managing a portfolio of projects alongside other functions within the business to deliver projects according to Milestones of the Programme.
- Control the Risk Register, documenting actions, and tracking mitigation.
- Project Budget control, controlling spend vs approved budgets.
- Ability to present to key stakeholder's project overviews at a senior level.
- Oversee Due Diligence and collaborate with the project team to mitigate risk against the programme/in line with spend.
- Update and track the project action log.
- Design Assurance- Coordinate all aspects of design development.

- Collaborate and communicate with Construction team.
- Oversee and update modelling inputs throughout the project life cycle.
- Leading Project meetings and reviews with the project team.
- Prepare Gate Papers pulling together information from the Project team to influence stakeholders and support investment decisions.
- Manage the HSE file to catch actions and decisions in line with CDM best practice.
- A core element of the role will be collaborating with all areas of the business, relationship building and working towards a common goal will be key.

*The above is not an exhaustive list of duties and you will be expected to perform different tasks as necessitated by your changing role within the organisation and the overall business objectives of the organisation.

Benefits

- Cycle-to-work scheme
- Annual leave – 25 days, plus your birthday, plus bank holidays. After 2 years' service, additional 1 days leave on each completed year up to a maximum of 31 days.
- Flexible working
- Private healthcare – Including family
- Pension scheme – we offer a salary sacrifice scheme where you can choose how much you want to contribute with the company matching contributions up to 5%.
- EV Company car
- Company Bonus Scheme of up to 20% of salary.
- Contribution to Gym membership
- Enhanced maternity and paternity leave.
